Suspects' Gender (Sex): Female suspects increased 12% in 2010 when compared to 2009. Male suspects increased 4% in 2010 when compared to 2009.

The following is a 2009-2010 comparison of the “Use of Force Reports” submitted from January 1st through December 31st, of each year.

Central Patrol Section	212
East Patrol Section	102
North Patrol Section	50
NW Patrol Section	71
South Patrol Section	61
West Patrol Section	150
Investigations Division	10
Tactical Support	106
Traffic Shifts	20
Total	694

This analysis does not purport to be a scientific study; however, it was designed to provide the Chief of Police with the critical dimensions encompassing force as exercised by officers throughout our Department.

Year End Analysis: There was a slight increase in the Use of Force incidents by officers of this department from the previous year by 7%. This increase can not be attributed to any one incident or change in the dynamic restructuring of units within the department. What is notable is the decrease of suspect injuries from the previous year by 183%. This decrease in injuries can be attributed directly to officer training and the increased use of non lethal weapons such as the (ECD) Electronic Controlled Device. Since the department has implemented the Crisis Intervention training over 1000 officers have been trained to detect, assess, and help consumers in crisis. The department is constantly reviewing the (ECD) program to comply with the latest trends in deploying this device. The department had also field tested a new collapsible baton (RCB) and has now made it available for officers to use in the field once an 8 hour course is completed at the Training Academy. This new non-lethal weapon has been met with positive feedback from those using the device. It is the department's goal to keep all officers and consumers safe and unharmed, but if the incident directs officers to use force to complete the mission we want all our officers to have the best equipment and training necessary to meet this need.
